

How To Submit Tournament Results

It's been a long day of hard T.O (Tournament Organizer) work; setting up terrains, keeping track of results and bringing justice to the tables of the ruleless heathens. Everyone's had their games, got their loot but now they want more! There is muttering about you having to give them Aghm, calculate rating points... revolt is brewing.

Fear not! The following guide will show you how to appease the blood-lusting mob in 3 easy steps. Just fill in the correct data and an army of clones will take care of the rest.

Submitting results

Sign in to your Living World account at living.para-bellum.com and head over to the "My Tournaments" page. This is where you'll find all the events you have organized or participated in. You can submit a new tournament by hitting on the "Submit results" button and following the 3-step process.

The screenshot shows the user profile for 'panos' on the Para Bellum Wargames website. The profile includes a 'Profile' link and a 'My Tournaments' link (highlighted with a red box). The user's stats are: Level 2, Aghm 1200, Votes 1, TLAoK 0, and First Blood 0. A 'Rating' button is also visible. Below the stats, there is a 'Submit results' button (highlighted with a red box) and a table of tournament results.

1. Tournament Details

Start by filling in the Tournament details:

Submit Tournament Results

- 1 Event details
- 2 Rankings
- 3 Submission

Event name		Weekly Rumble

Next

Event name

Though not required, you can enter a name for your Tournament to stand out.

Event type

Two types of Tournaments are currently supported:

- **Casual:** Your regular game night at the club, an impromptu Tournament, or a “relaxed” newcomers-friendly Tournament. **Casual** Tournaments can be submitted by all registered users and grant all rewards except for rating points.
- **Local:** This is the first step in the world of competitive games. Only Vanguarders are allowed to submit results for **Local** Tournaments and they count towards your competitive rating.

System

Were you playing *The Last Argument of Kings* or *First Blood*? Rewards are the same for both systems but your account will hold a different competitive rating for each one.

Points

Casual Tournaments can be played with any size lists you decide. For rated Tournaments though (currently only **Local**), list points are locked according to the Tournament Rules in effect.

Players

How many people are bugging you for their rewards? ...or at least how many were there in the morning? **Local** Tournaments with less than 6 players will sadly not be accepted. **Casual** Tournaments can have any number of players.

Date

Just don't try to predict the future.

Venue

You need to specify a venue for your Tournament. This can be one of:

- **Store:** From our list of registered stores. Start typing the name and select from the list.
- **Club:** From our list of registered clubs. Start typing the name and select from the list.
- **Location:** A geographic location. Start typing your city name and select from the list.

2. Rankings

Hit the “Next” button and continue by entering player data in the rankings. The minimum player data we require is the player’s Faction name. However, for **registered players** to receive their rewards, you must also enter their Para Bellum Account email or PIN. If you have **unregistered players** participating in your Tournament that would like to gain their rewards and kickstart a new account, you can enter their email address and a set of instructions will be sent to them promptly.

The screenshot shows a web form titled "Submit Tournament Results" with a close button (X) in the top right corner. On the left, there is a vertical progress bar with three steps: "Event details" (marked with a red checkmark), "Rankings" (marked with a red circle containing the number 2), and "Submission" (marked with a grey circle containing the number 3). To the right of the progress bar is a light blue information box with an information icon (i) and the following text: "Fill in the players' PIN number or Para Bellum account email to let them reap their rewards. Providing an email for unregistered players will allow them to create an account and collect the rewards of this event. Email addresses of unregistered players are never stored and are only used in order to notify them for their participation in this event." Below the information box is a table for entering player data. The table has four rows, each representing a player. Each row contains a number (1, 2, 3, 4) in the first column, a dropdown menu labeled "Faction *" in the second column, and a text input field labeled "PIN or Email" in the third column. The dropdown menus are currently set to "Faction *".

Once you're done, hit the “Next” button once more.

3. Tournament Codes

All Tournaments require valid Tournament Codes in order to be submitted. You will find these codes included in the Conquest Organized Play kits, just look for the “Tournament Code” card.

Each code is valid for up to 8 players. So depending on the number of players you have entered, you will be asked for one or more such codes. Enter the appropriate number of codes, hit Submit and you're all set!

If you are still unsure about this process or keep receiving any error messages, don't hesitate to ask for help at contact@para-bellum.com.
